HIGH SCHOOL STUDENT INTERNSHIPS

At Electroglobal, we are committed to nurturing the next generation of engineers and innovators through our high school student internship program.

Participants work alongside experienced engineers and technicians on actual projects, gaining practical skills that complement their academic studies. They learn about various aspects of the industry, from designing electrical systems to implementing automation solutions.

#education #students #internships

STUDENT

STUDENT FAIRS JOBSHOP® & INFOTECH

Electroglobal actively participates in student fairs such as JobShop® and InfoTech. These events allow the company to connect with young talents, showcase its innovative projects, and offer students insights into the industry.

We bring to light the diversity and dynamism of our city, offering new perspectives and diverse opportunities with our slogan "Cluj is not only about IT".

#education #students #internships

INTERNSHIPS FOR UNIVERSITY STUDENTS

We offer internships for over 20 university students annually, giving them the chance to gain valuable work experience and develop their professional skills.

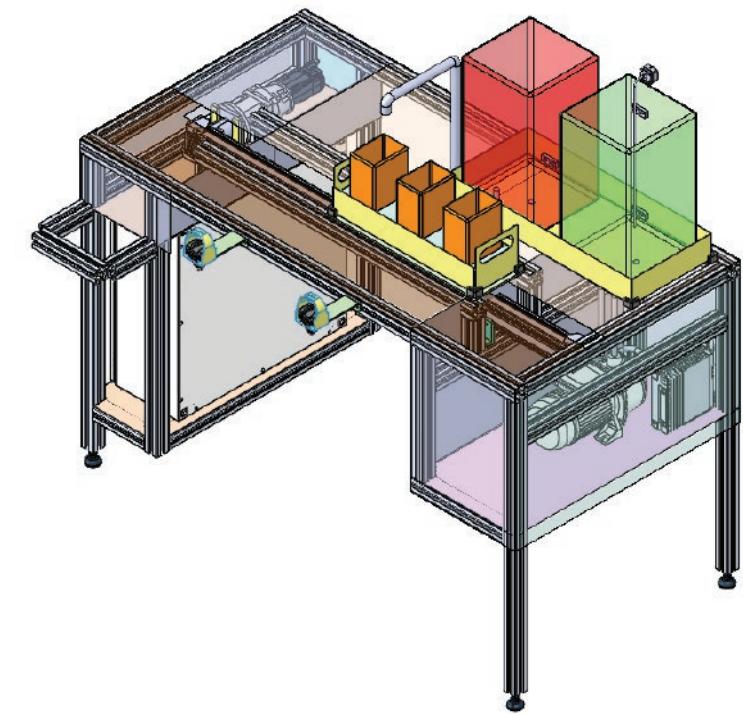

Our internship program is designed to support students in their educational journey and provide them with a competitive edge in the job market.

#education #students #internships

TEST BENCH FOR UNIVERSITIES FACULTY OF ELECTRICAL ENGINEERING

Through sponsorship actions, Electroglobal has equipped the laboratories of the Technical University of Bucharest and the Technical University of Cluj-Napoca with automation & drives equipment and building test benches for student use.

As of now Electroglobal is in the process of creating a test bench for the Technical University of Cluj-Napoca, Faculty of Electrical Engineering, Department of Electrical Power Engineering and Management.

#education #students #internships

CONECTOR

An exceptional event, organized in collaboration with our partners from ABB Romania & Zumtobel, in the innovative space Conector.

An extraordinary opportunity to bring together technology and contemporary art, celebrating the synergy between innovation and creativity.

Consisting of two episodes as of now: "I Despise All Movement that Displaces Line" & "A Tower of Birds", the event showcased a fusion of advanced technology and contemporary art practices.

From the technical presentations of equipment and solutions offered by ABB, ZUMTOBEL & ELECTROGLOBAL, to the captivating exhibition of geometric abstract art, each aspect was proof of how art and technology can collaborate harmoniously.

HIGH SCHOOL ART STUDENTS C156

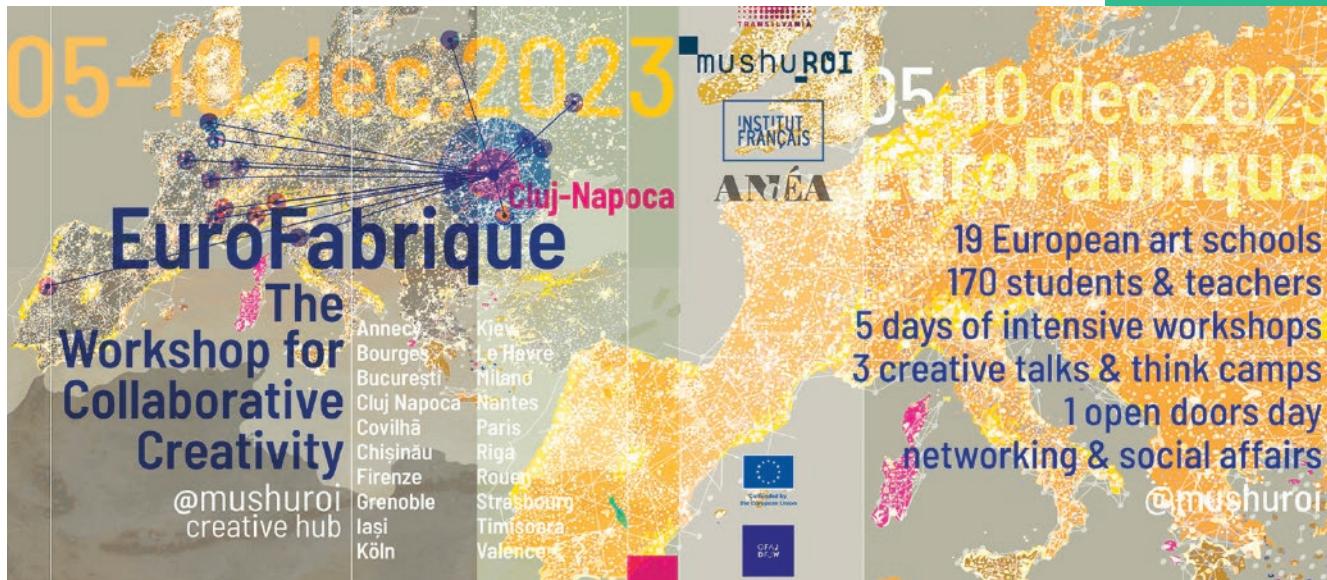

We support students C156 by showing off their artwork at the transformer station painted at our headquarters and assisting the Murals of Youth event.

Community 156 (C156) is a group of students and teachers who carry out extracurricular projects aimed at showcasing and nurturing the creativity and talent of students, thereby bringing attention to the public image of the institution they represent.

Project within the "Romulus Ladea" High School of Visual Arts in Cluj Napoca.

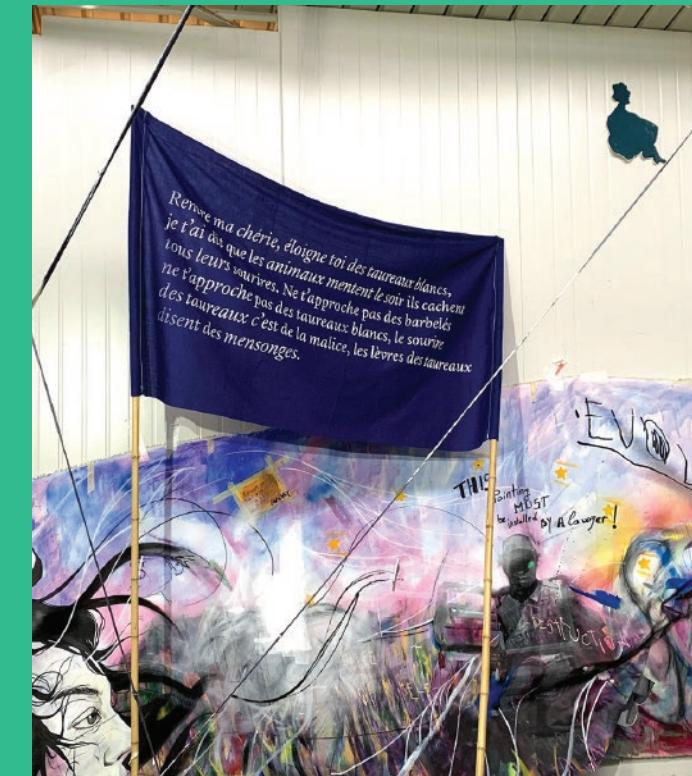

#art #innovation #collaboration

EUROFABRIQUE SPONSORSHIP

EuroFabrique, held in Cluj-Napoca in December 2023, convened 170 students from 19 European art schools to explore and challenge the boundaries of contemporary European identity through innovative artistic collaborations.

#art #innovation #collaboration

Through diverse projects, they explored pressing European issues and fostered collaboration despite initial differences in approach, highlighting art's role in addressing societal complexities and promoting cross-cultural dialogue.

RAD 2024

RAD Art Fair is an overdue collaborative initiative that strengthens the core of the Romanian art scene, offers visibility to its artists and galleries, and builds a base for the growth of a healthy national art market over the next decade.

#art #innovation #collaboration

RAD is organised by Romania's leading art galleries. Electroglobal is proudly supporting the Memo17 and Catinca Tabacaru galleries.

Romanian Pavilion 2024

“What Work Is” by Șerban Savu, representing Romania at the Venice Biennale, was inaugurated on April 18 in the Romanian Pavilion at Giardini della Biennale and the New Gallery of the Romanian Institute of Culture and Humanistic Research.

The project explores the iconography of work, inspired by historical realism and propaganda art from the former Eastern Bloc. Savu presents ordinary characters, reflecting an anarchic space of personal freedom.

HOIA BACIU NIGHT RUN

The Hoia-Baciu Forest (World's Most Haunted Forest) is situated near Cluj-Napoca, Romania and covers an area of over 250 hectares and is often referred to as the Bermuda Triangle of the country. Hoia Baciu Forest, has a reputation for intense paranormal activity and unexplained events.

#sport #lifestyle #health

This event is powered by Electroglobal, one of the national leaders in the electric solutions and equipments strictly dedicated to performance of industrial processes.

The event tests the bravery of the runners in 3 races: Dark Forest 21k, Light Hoia 10k and Fast Party 5k.

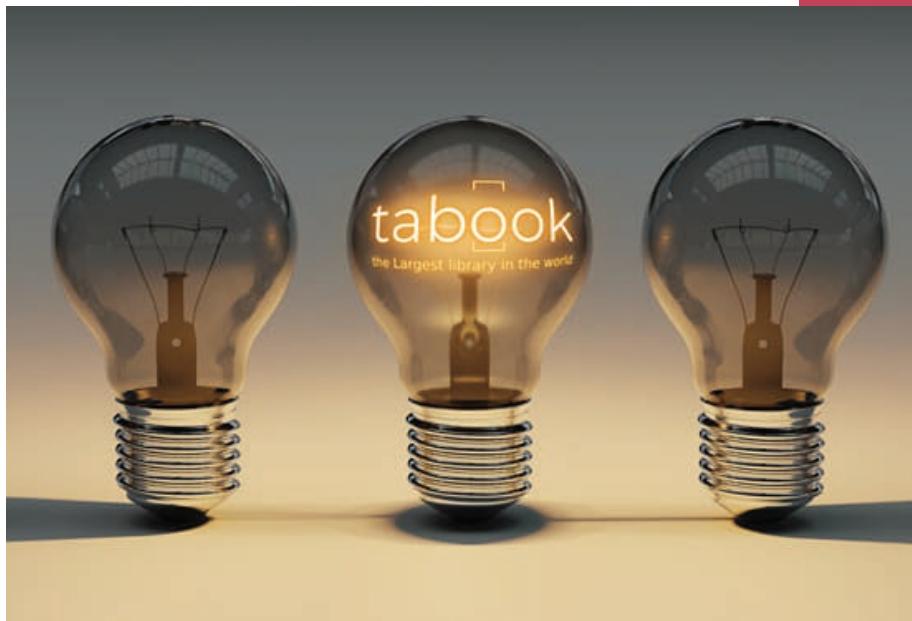

Romanian Open Squash

Romanian Open Squash is an event for fitness enthusiasts. Electroglobal partnered with ROS to support the 10th edition in Romania, Cluj-Napoca, of one of the healthiest sports (Forbes magazine).

#sport #lifestyle #health

Supporting Tabook

More than an app to share insights and trade books with friends, T@book is a culture media platform. Electroglobal proudly sponsored one of their initiatives.

#social #community

T@book is a culture media platform that allows users to encourage and empower others. Creators share their reading experiences through video insights and receive Pergamon coins in exchange. The platform connects readers, creators, and the publishing industry.

Supporting Booktruck

Electroglobal invests in education by supporting the mobile library, BookTruck. "A child who reads will become a thinking adult!" (BookTruck)

Children from rural areas are able to borrow books, meet actors, writers, athletes, photographers, artists, IT professionals, many other professions that may influence their future through the existence of BookTruck.

#social #community

Planting Trees

Electroglobal has planted trees along the terrain behind the headquarters in Cluj-Napoca in partnership with the Rotary Club Cluj-Napoca within the projects: "Rotary plants".

Rotary Plantează (Rotary Plants)'s mission is to engage public opinion, civil society, authorities, the media, sponsors, and other volunteer organizations in the protection and growth of forests.
